Message from the Director

Eric Raff, ODHH Director

Hello! ODHH Strategic Plan for 2009-2013 has been finalized and posted on the website. Please take the time to download and read what we will do for you in the next several years!

As you may know, the Washington economy is not doing too well. Lower revenue projections for the State of Washington government resulted in a hiring freeze and cutbacks in travel, certain contracts, equipment purchases and other expenses. What does this mean for ODHH? ODHH has a vacant position that cannot be filled, some planned contracts that will be on hold, and a reduction in some staff travel. Some goals in the strategic plan will be delayed. While this may be unfortunate, I am confident that ODHH can face these difficult times and continue to provide the essential services our clients need.

While the strategic plan is completed, accomplishing the goals begin. I want to take a moment to recognize certain achievements, milestones and goals in the last three fiscal years (FY06-08) covering the period between July 1, 2005 – June 30, 2008. (See page 5) This could not have been achieved without the staff, advisory committee, contractors and many supporters in the communities. For this, I am grateful and appreciative of their work and involvement.

Due to lack of public awareness, barriers to effective communication access exist for individuals who are deaf, hard-of-hearing, deaf-blind and speech disabled in Washington State. I am always looking to increase public awareness and recently worked to release a Governor's Proclamation celebrating the International Deaf Awareness Week during the week of September 21-27, 2008! The last Governor's Proclamation happened in 1997.

I intend to seek similar Governor's Proclamations in the future such as "Better Hearing and Speech Month" in May and the "National Helen Keller Deaf-Blind Awareness Week" in June to reflect the diverse communities we serve. A simple proclamation is only the beginning. I predict someday working with regional and local organizations to host local celebrations in schools and malls and them working with their local mayors' offices to release Mayor's Proclamation(s). We need to work together to become more visible and to help the public understand that by removing barriers we can improve our quality of life and succeed in anything!
